Fuel for Xmas and in the New Year

Burrinjuck Waters and Grabine Lakeside will have new and improved fuel facilities offering both diesel and unleaded in time for Christmas, with Lake Keepit. Lake Burrendong and Wyangala Waters to be completed in the new year.

Following the shutdown of service stations across the inland Reflections Holiday Parks in May this year, the Group appointed Penrith-based firm, Petrolink Engineering in November 2018 to install improved, unmanned facilities to be available for guests and visitors 24/7.

Reflections Holiday Parks CEO Steve Edmonds said he was pleased to confirm that the Group's Burrinjuck Waters and Grabine Lakeside parks would have fuel services restored as promised in time for the busy holiday period.

"Lake Keepit near Tamworth NSW is on track for completion of its fuel facilities by late January 2019, while the fuel facilities for other parks will come online in the few months following," Mr Edmonds said.

The new and upgraded fuel facilities will be ready for use in the coming months at the following locations:

- 1. Grabine Lakeside** (Bigga NSW) – By Xmas 2018 - **Fuel has been on sale to visitors for the past few days.*
- 2. Burrinjuck Waters** (Burrinjuck NSW) – By Xmas 2018 - **The team has been working round the clock to complete this project and final testing is occurring today. We are hopeful to be delivering fuel by the end of the day.*
- 3. Wyangala Waters** (Wyangala Dam NSW) – By January 2019
- 4. Lake Keepit** (Keepit NSW) – By March 2019
- 5. Lake Burrendong** (Mumbil NSW) – By March 2019

Fuel services for **Cudgegong River** in Yarrabin NSW will be implemented at a later stage.

Reflections Holiday Parks CEO Steve Edmonds said construction was well underway at Wyangala Waters, with the fuel project for other parks delayed by Council planning approval processes.

"Weather and delays from Council bodies with planning permissions have meant that we could not have all five parks ready in time for Xmas. We have pulled out all stops to ensure that our inland parks receive restored fuel facilities as soon as possible and are proud that in the coming months all will be completed.

"For those parks with no fuel facilities, there are fuel storage and decanting options available for those who want to bring in their own fuel."

About NSW Crown Holiday Parks Land Manager, trading as *Reflections Holiday Parks*

The NSW Crown Holiday Parks Land Manager manages the operations of 37 holiday parks and public recreational reserves on Crown land throughout NSW. Formed in 2013 to consolidate the operations of 28 coastal and nine inland holiday parks and reserves located on Crown land throughout NSW, the Group incorporated three holiday park brands under its corporate banner, (North Coast Holiday Parks, South Coast Holiday Parks and Inland Waters Holiday Parks).

Rebranded to *Reflections Holiday Parks* in February 2018, the Group brings its 37 holiday parks and public recreation reserves on Crown land under the one unified banner. The group is a not-for-profit organisation and reinvests its surpluses across all of its parks and public recreational reserves, so visitors and regional communities can keep enjoying these pristine locations. The Group's surpluses also cross subsidise its nine inland parks and reserves and help keep country communities and visitors enjoying these precious community assets. The vision of *Reflections Holiday Parks* is to inspire all who visit.
